

≡ MANSORY ≡

OVERVIEW

last update 04 / 2021

The complete conversion
based on **See Doo Gtx limited 300**

On land and on water...

MANSORY speeds you up everywhere

The road is not our limit, MANSORY presents a maritime jet ski for water sports enthusiasts - a perfect combination of luxury and pleasure for a fast and fun ride on the water.

Luxury jet ski in an exclusive
carbon fibre design.

Based on the Sea-Doo GTX Limited 300, the complete body is made of Stealth Carbon - an extremely strong and ultra-light material - saving a total of almost 10 kilograms of weight.

Thanks to this material and in combination with new LED lighting at the front, the MANSORY designers have given the Jet ski an extraordinary look that changes the overall appearance of the Jet ski in an elegant and impressive way. Thus, after its conversion, the “Seadoo by MANSORY” appears significantly more dynamic and is more aggressive at the same time, making it a luxurious eye-catcher.

The most important facts, technical data & individual features:
